PROGRAM: **“THE ‘FRIENDLY’ SIDE OF OSHA”**
Laura Mattimoe, Safety Consultant
OSHA On-Site Consultation Program

BWC’s OSHA On-Site Consultation Program provides free and confidential safety and health advice to small-to medium-sized businesses with high-hazard work processes committed to improving workplace safety and health. Services include free on-site safety inspections and consultation; safety program assistance; safety and hygiene training or seminars; and printed and electronic resources. Unlike federal OSHA, the On-Site Consultation Program does not have the right of entry to a workplace. Also, it does not issue citations or fines. An employer voluntarily requests the service. He or she has a mutually agreed-upon time frame within which to correct any safety hazards identified.

Our speaker, Laura Mattimoe, is a Safety Consultant with the OSHA On-Site Consultation program. In this position, she travels northwest Ohio to help small, high-hazard businesses understand and comply with all applicable OSHA regulations. She brings fresh insight into hazard assessment and policy development, using common sense approaches and new ideas. She has helped several businesses achieve their goals of safer worksites for their employees. She received her Bachelor of Science in Environmental Health from Bowling Green State University and her Master of Science in Occupational Health from University of Toledo Medical Center. Laura’s passion for helping others has led her for over 20 years, volunteering as an EMT and American Red Cross Disaster Action Team Leader. She is a proud Air Force brat and Army National Guard mom.
